OF EMERGENCY SERVICES

## SITUATION SUMMARY

### Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

#### Mudslide, I-5, Los Angeles / Kern County Line

On 05/06/16 at 1825 hours the California State Warning Center (CSWC) received a report from Caltrans, advising that a mudslide had occurred on I-5, 4.7 miles north of the Los Angeles / Kern County Line.

- Caltrans advised that the roadway reopened as of 2041 hours on 05/06/16.

#### Natural Gas Release, Playa Del Rey, Los Angeles County

On 05/06/16 at 1641 hours, the California State Warning Center (CSWC) was contacted by the Division of Oil, Gas, and Geothermal Resources (DOGGR) advising of a notification from a private citizen who stated that they have been smelling a gas odor coming from one of SoCal Gas' facilities at Playa Del Rey Underground Storage, Los Angeles County.

- Per the California Department of Public Health (CDPH-EPO):
  - Playa Del Rey Care & Rehabilitation Center (SNF) and Marina Del Rey Hospital (GACH) are located in the area.
  - Both facilities were contacted and are reporting no impacts at this time.
- Per Southern California Gas:
  - Southern California Gas sent a representative to check the area in question.
  - No leaks or issues were found at the facility.

# **WEATHER OF CONCERN**

## **Weather of Concern**

### **Northern California:**

- Large bands of steady rain with embedded thunderstorms are most likely to occur today, where rainfall could exceed 1 inch in certain areas.
- Rivers and creeks will continue to rise, with some minor flooding possible near smaller creeks and streams.
- Most snow will be limited to the highest passes above 8500 feet.

### **Central California**

- The spring weather system that has impacted the area for the last few days will continue to linger through the weekend.
- After several days of heavy rain, the ground has become saturated and is primed for high flash flood potential.
- Due to the nature of the storms, the San Joaquin Valley and Grapevine areas with once again be affected by possible flash flooding and heavy downpours.

### **Southern California**

- The upper level low pressure system that has been impacting California the past few days will continue to bring scattered showers and possible thunderstorms to the region today.
